Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I also don't think it's fair for an UN-ELECTED government agency raise my TAXES. We all know that increased "FEES" are nothing but a TAX INCREASE!! It's time the Federal Government started making do with the current level of income, and stop RAPING the taxpayer every time it wants more money!! I believe that CONGRESS is the only government branch that should be allowed to ATTEMPT to raise my taxes, not some greedy agency looking to increase their coffers. Do not penalize us just because you can't find a better and more efficient way to use the already outrageous amounts of TAXPAYER money you already receive!!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Jeff Hamilton
